Security & Identity: NextAuth, Azure AD / Microsoft Entra ID, OAuth 2.0, row-level security (RLS), API security, access control

Testing & Delivery: Playwright, Vitest, Jest, React Testing Library, GitHub Actions, CI/CD, Docker

Additional: n8n, Azure Document Intelligence, Microsoft 365 / Excel, Google Analytics, Figma, Adobe Photoshop, C#, ASP.NET

PROFESSIONAL EXPERIENCE

Full Stack Developer | Victory Christian Center

Tulsa, OK | Hybrid | Jul 2024 - Present

- Own the design, development, deployment, security, testing, and ongoing support of public web platforms, internal systems, integrations, and workflow automation across organizational operations.
- Rebuilt Victory.com as a modern Next.js/TypeScript platform, replacing an outsourced .NET implementation; consolidated 30+ pages and migrated 250+ digital resources while enabling direct internal content ownership through Sanity CMS.
- Built and maintain an internal staff portal supporting 300+ users across departments, including Azure AD authentication, Microsoft 365/Graph integrations, IT ticketing through the Atera API, knowledge resources, HR workflows, and administrative tools.
- Developed 20+ custom forms and operational workflows across guest services, pastoral care, finance, events, and administration, integrating Supabase, Azure, Microsoft Graph, Logic Apps, Twilio, Fellowship One, Typeform, and document automation.
- Engineered automated workflows including guest follow-up and SMS communications, baptism registration and certificate generation, benevolence eligibility/routing, and receipt processing with Azure Document Intelligence.
- Develop and maintain a network of ministry and event sites; configure Vercel deployments, GitHub Actions CI/CD, Cloudflare WAF/rate limiting/bot protection, caching, analytics, redirects, domains, and performance/SEO optimizations.
- Partner with Media, IT, Finance, HR, pastoral, and operational stakeholders to translate requirements and manual processes into reliable, maintainable digital systems.

Student Full Stack Software Engineer | Atlas School

Tulsa, OK | May 2023 - Dec 2024

- Completed an intensive project-based software engineering program covering computer science fundamentals, full stack development, databases, APIs, DevOps concepts, and collaborative software delivery.
- Built hands-on applications and completed peer-reviewed projects emphasizing debugging, problem solving, version control, testing, and modern development practices.

Student Tutor | Atlas School

Tulsa, OK | Part-time | Sep 2023 - Apr 2024

- Supported software engineering students through project reviews, live coding, debugging, and technical guidance; collaborated with instructors to reinforce concepts and independent problem solving.

SELECTED PRODUCTION PROJECTS

Victory.com - Web Platform Rebuild & CMS Migration | Victory Christian Center

May 2026 - Jul 2026

- Sole full stack developer from design through launch; implemented Next.js, TypeScript, Sanity CMS, Supabase, Cloudflare R2, Vercel, analytics, automated testing, and layered application/infrastructure security.
- Delivered 30+ rebuilt pages, 250+ migrated resources, reusable UI components, optimized rendering and caching, and a maintainable content platform used directly by internal teams.

Victory Staff Portal - Internal Platform | Victory Christian Center

Jul 2026 - Present

- Centralized platform for 300+ staff members combining department resources, IT support, HR processes, training, knowledge content, Microsoft 365 integrations, secure authentication, and administrative tools.

Operational Systems & Workflow Automation | Victory Christian Center

May 2025 - Present

- Growing suite of connected applications spanning guest engagement, registration, finance, pastoral care, communications, document processing, and administration; designed, integrated, tested, deployed, and maintained end to end.

Multi-Site Web Network | Victory Christian Center

2024 - Present

- Build and maintain ministry and event websites including pauldaugherty.org, reach.victory.com, park.victory.com, youth.victory.com, and seasonal campaign sites, with shared infrastructure, analytics, security, performance, and CI/CD practices.

EARLIER EXPERIENCE

Refugee Case Worker | YWCA Tulsa

Tulsa, OK | Mar 2023 - Apr 2023

- Managed refugee resettlement case activities, client records, agency coordination, employment support, and translation/interpretation.

Online ESL Instructor | First Future

Remote | Feb 2016 - Mar 2022

- Taught English to international students online, adapting instruction by proficiency and learning style; assessed progress, delivered feedback, and conducted demonstration classes.

Translator & Interpreter | Freelance / Contract

Various locations | 2010 - 2022

- Provided written translation, proofreading, and consecutive/simultaneous interpretation for publishing, education, books and journals, and live international events.

EDUCATION

Full Stack Web Development | Atlas School | May 2023 - Dec 2024
